² 17 CFR 240.19b-4.

Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange is proposing a quote mitigation plan for its CMMs on a pilot basis for one (1) year in no more than twenty (20) securities (“Pilot Program Securities”) designated by the Exchange. With the explosion of quotation traffic – exacerbated by the penny pilot – the Exchange continues to seek ways to mitigate the generation of quotations. At least two exchanges have adopted quote mitigation plans that relieve some market makers of the obligation to quote in every series of every class of options in which they are a market maker.⁴

Under ISE’s current rules, a CMM must enter continuous quotations in all the series of at least 60 percent of the options classes for the group or "bin" to which it is appointed, or 60 options classes in the Group, whichever is less. Further, once a CMM enters a quote in an options class to which it is appointed, it must continuously quote in all series of that options class until the close of trading that day. ISE proposes to amend its rule so that a CMM will be required to enter continuous quotations in just 60 percent of the series, rather than in all series, of the options classes overlying the Pilot Program Securities, to which the CMM is appointed. Once a CMM enters a quote in a series, it must continue to quote in that series until the close of trading that day. The Exchange notes that ISE Rule 804(e)(2)(iii), which states that a CMM may be called upon to submit quotes in one or more series of options to which it is appointed in the interest of maintaining fair and orderly markets, shall continue to apply under the proposed pilot program.

⁴ See Phlx Rule 1014(b)(ii)(D)(1); see also Amex Rule 994(c)(iv).

Under the proposal, the Exchange will issue a circular to CMMs identifying the initial Pilot Program Securities. The Exchange notes that the Pilot Program Securities selected by the Exchange are subject to change based on the quoting activity in these securities. The proposed pilot will consist of up to 20 of the most active classes, in terms of the number of quotes generated, that are in the Exchange's Penny Pilot Program.⁵ Each time a change takes place in the Pilot Program Securities, the Exchange will issue circulars to notify CMMs of this change and shall provide them with adequate notice in order for them to make any required systems changes.

The Exchange believes the proposed pilot is a good first step towards adopting an internal quote mitigation plan that is beneficial both to the Exchange and its members without adversely affecting the quality of the Exchange's markets.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act,⁶ in general, and furthers the objectives of Section 6(b)(5) of the Act,⁷ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.
